Description

In line with the Aston Martin V8 Saloon the V8 Volante the V8 Volante was updated in 1986 to receive the V585 v8 engine with weber electronic fuel injection and therefore a flat bonnet was adopted.

During production the flexible Perspex rear window in the hood was replaced by a heated glass screen. NA number of cars were supplied with Mohair rather than the standard Everflex hoods.

The EFI V8 Volante was built at Newport Pagnel between 1986 and 1989 with 214 units being produced. Of which 171 were left hand drive cars, 112 of them being Federal supplied cars. 59 cars were supplied to Europe of which 14 were manual and 45 automatics.
