Exterior Colour	Jaguar Mistral Blue
Previous Owners	3
Registration	S60AMV

Description

One of the most outstanding Aston Martin V8 vantage V600 cars on the road today, with every available option fitted. The Aston Martin V8 Vantage V550, made its first appearance at the 1996 Birmingham Motor Show and as a result of an advanced engineering programme, carried out by Special Operations Department at Aston Martin Works Service in 1997 the V600 package was launched. Made available at considerable expense, owners of the 550 bhp Vantage were able to upgrade their cars to the comprehensive V600 specifications, giving themselves the ultimate performance from the already accomplished Vantage. With over 600 bhp available from 5.3 litre Supercharged V8 engine, a top speed of 200 mph was claimed, with 0-60 coming up in 3.9 seconds.

At considerable cost, the upgrades combined to transform the Vantage to a new high level of outright performance, whilst loosing nothing, of the consummate ease, with which the Vantage covers ground.
