Registration	G573KOE

Description

1989 Bentley continental Convertible finished in Rolls Royce Royal Blue with Magnolia piped dark blue trim.

We have known the car since 1992 when the third owner purchased the car through Danny Donvan and had the car totally checked over and anything requiring attention dealt with and that was continuous through the cars life.

Following the purchase, a full Swaine Adney Brigg matching luggage set was made for the car, a fitted car cover a battery conditioner and Lamb's wool matching over mats which are all still with the car. The car has all of its original books, keys and tools along with a really good documented supportive history file. The history displays how well the car was looked after.

The then owner moved to Germany and asked if we could sell the car which we did very quickly to the current owner who lives in Aberdeen where the car is today and he has continued to look after the car the same attention it has always been given.

The car is back up for sale and the owner has ask Classicmobilia to advertise the car discreetly which we are now doing.
